Work with a captive expert

Together, we can help you form new companies, activate old captives, and manage a wide range of companies that use different fronts for a variety of programs. When you work with us, you'll have access to our strong professional relationships with local and international lawyers, bankers, auditors, and government bodies to ensure your captive runs smoothly.

Service that sets us apart

Our expert team of captive specialists provides hands-on support. A senior captive manager, who is a qualified accountant, will assist you in setting up your program and understand every detail of your account. Additionally, you'll be assigned an account manager who will provide additional support and answers to your day-to-day questions.
