

Workplace Safety Index: Wholesale trade

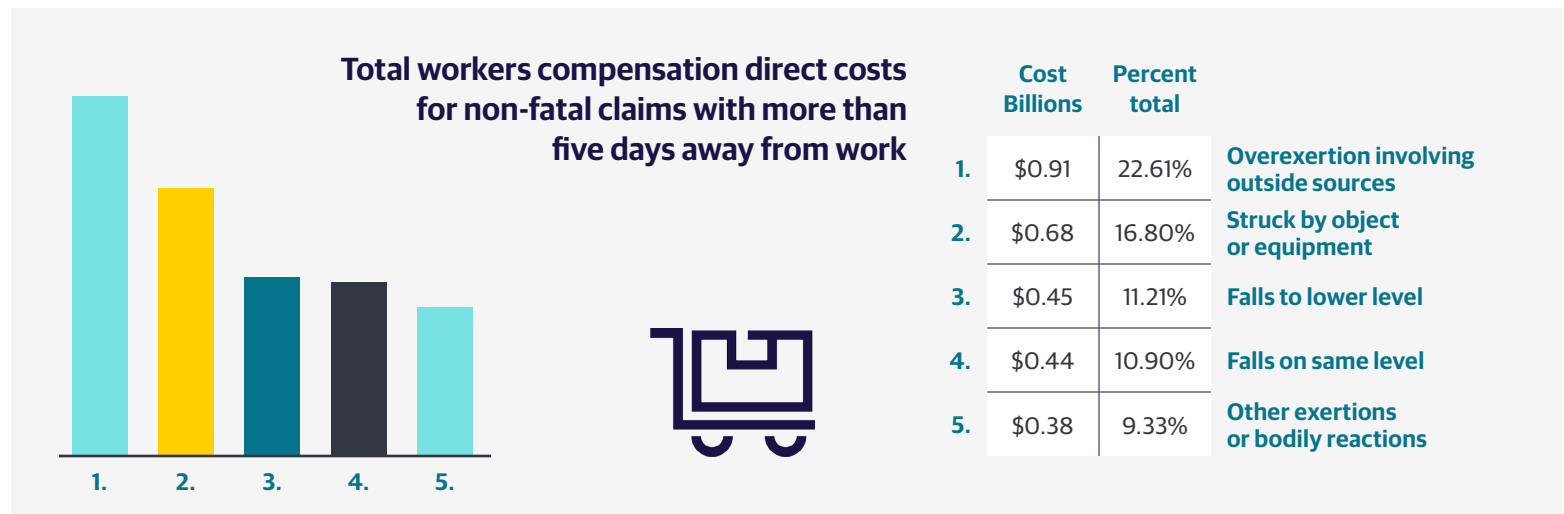

Technical Capabilities from Liberty Mutual Insurance

Serious, non-fatal injuries cost **\$77.69 million a week** in the wholesale trade industry

Looking for more comprehensive safety information?

As a policyholder, you have exclusive access to risk control tools and resources through Liberty Mutual SafetyNet™

visit lmi.co/safetynet

Did you know: Liberty Mutual SafetyNet™ has sophisticated technical resources to help prevent overexertion involving outside sources, struck by object or equipment, and many other wholesale trade exposures. When it comes to managing risk in the workplace, knowledge is power.

Scientific methodology: The Liberty Mutual Workplace Safety Indices are based on 2016 data from Liberty Mutual, the U.S. Bureau of Labor Statistics (BLS), and the National Academy of Social Insurance. BLS non-fatal injury data are analyzed to determine which events caused employees to miss more than five days of work, and then rank those events by total workers compensation costs.

For more information, contact your local service director or the Risk Control Consulting Center.
